OFFICE SPACE SAFETY HAZARDS - VR TRAINING APP FOR ONE OF THE LARGEST AIRCRAFT MANUFACTURERS

PROJECT SCOPE

// Development of a VR solution to train personnel and create awareness about the safety hazards in the office space. The solution was designed to train office workers and Gemba walk managers to maintain hazard free, clean, and safe environment

SOLUTION HIGHLIGHTS

// Creation of virtual office environment with all safety hazards in place

// Enablement of gesture / voice controls – videos and animation to show what is right, and gestures to correct hazards

BUSINESS VALUE DELIVERED

// Immersive training experience in a virtual environment
